freight at the crossing of the two roads. The C. H. & D. train had the target and was taking water when the B. & O, train going west came up within 15 rods of the crossing before the engineer noticed that a C. H. & D. freight train was on the crossing. The engineer on the B. & O. reversed his engine and he and his fireman jumped. The B. & O. train cut the H. & D. freight throwing two freight cars from the track, dumping one of them on the platform. The B. & O. engine was badly demolished. Crop Conditions,

NORTHERN SECTION. -The weather has been hot with an excess of sunshine. It was also dry, except in northeast counties, where good rains fell. In the dry counties corn is hopelessly injured on poor, undrained and uplands, while in fair condition on bottoms and good lands. In the fav-ored counties it is generally growing rapidly and recovering some from previous untoward circumstances. It s uneven in all counties from replant ing and the effects of cold and rains earlier in the season. Reports indicate an excess in acreage and a con-siderable deficiency in yield even should rains come soon and conditions favor. Oats generally harvest-ed; crop fair to good, but not up to expectations in many localities. Some plowing for wheat. The Contract for Waterworks and Electric Light Let.

The contract for the building of the waterworks and electric light plant was awarded to the Toledo Construction Co. on Saturday, the company being the lowest bidder. The con-tract price is \$35,000 for the water-works plant and \$12,000 for the elecvary one way or the other, depending upon what class machinery and supplies are selected by the Board of Trustees. As these are numerous, it will be come letter to the selected by the select will be some little time before the board decide which they will put in the plant. But the citizens of Napoleon can rest assured that whatever class of engines, or pumps, or other machinery is selected by the board, they will be of the best and selected after thorough investigation.

The contractors expect to commence the work of construction at once, and both plants will be in operation before the snow flies again. Thus the wishes of a large majority of our citizens will be carried out, after innumerable delays and hindrances which have extended over a period of hall in Deshler, county ditch three years. These delays may prove a petitioned for by J. E. Dillon et Sale to commence at 9 o'clock a. lieve they have, as it has given time Ro for investigation and acquainting ourelves with the construction of plants of this character.
